

## Fontys Venlo SoFa Group 1

Minutes for November 13, 2017

**Present:** L. Ehren (Chair), N. Nieuwenhuis, S. Brauer, T. Derksen (Secretary)

### Agenda

1. What did we do last time
2. What will we do today

### What did we do last time

<b>Sjoerd</b>	Designed new endpoint for current sprint; Made mockups for new view; Started developing new view qualification overview
<b>Nils</b>	<i>Sick</i>
<b>Loek</b>	Added endpoints for qualifications and semester information; Working exception handling in backend;
<b>Tobias</b>	Implemented user story to order projects at the end of a semester; Wrote query for getting semester information from the database; Synced with HOM to get access to the fontysvenlo server

### What will we do today

<b>Sjoerd</b>	Get in sync with Nils and divide the work which has to be done
<b>Nils</b>	Get in sync with Sjoerd for current status of frontend development
<b>Loek</b>	Improve exception handling in backend to display real error information; Think about some caching in backend.
<b>Tobias</b>	Setup first deployment setup on fontysvenlo server; Perform database tasks for this sprint; Setup CI and CD pipelines on server
