Reviewer Comments

US_001:

- Random capital at 'Creating'.
- Does the teacher create a module or a module description? They are different things.
- What does retrieve guidelines mean??

US_002:

- Does the teacher create a module or a module description? They are different things.
- What does retrieve guidelines mean??

US_005:

- The teacher makes the module or the module DESCRIPTION public? They are different things.

US_006:

- Saying 'and gets permission according to his role' is already specifying requirements.

US_007:

- 'logout' should start with a capital.
- The story should just be 'A user logs out'.

US_009:

- 'adding users' should start with a capital.

US_012:

- Is this not the same as modifying a module?

US_014:

- Name should start with capital.
