

# 1 Interface specification

This document outlines the specifications of the back-end application. The back-end application has a RESTful interface with which the front-end communicates with.

The data format used will be JSON.

The JSON objects can be found in the json\_objects.ods file

Complete overview of back-end endpoints. P stands for parameter	
Uri path without source	Description
/curricula	an array of curricula
sp/p/qualification	an array of qualifications
semester/p/modules	an array of modules
semester/p/qualifications	an array of qualifications
curriculum/:curriculum_id/semesters	an array of semesters
module/p/lg	an array of learning goals

# 2 Sprint implementation

For the first sprint endpoint /curriculum/:curriculum\_id/semesters will be implemented.// Example of this would be: curriculum/1/semesters

semesters of curriculum	
URL	/curriculum/:curriculum_id/semesters
Method	GET
Returns	json array of semester objects which in turn are filled with corresponding modules.
Returns	200 OK 404 Not found

For the first sprint endpoint /curricula will be implemented.//

curricula of student program	
URL	{source}/curricula
Method	GET
Returns	json array of curriculum objects.
Returns	200 OK 404 Not found

### 3 Endpoint definitions

This section describes the urls more specifically with functionality, the JSON format and HTTP codes. The dataobjects are described in [json\\_objects.pdf](#) in this repository

#### 3.1 Curricula of student program

curricula of student program	
URL	{source}/sp/:id/curricula
Method	GET
Returns	json array of semester objects which in turn are filled with corresponding modules.
Returns	200 OK 404 Not found

qualifications of student program	
URL	{source}sp/p/qualification
Method	GET
Returns	200 OK 404 Not found

modules of a semester	
URL	{source}semester/p/modules
Method	GET
Returns	200 OK 404 Not found

qualifications after semester	
URL	{source}semester/p/qualifications
Method	GET
Returns	200 OK 404 Not found

learning goals of a module	
URL	{source}module/p/lg
Method	GET
Returns	200 OK 404 Not found
