Chapter 1

Introduction

This chapter is about general information regarding the Sofa Project "Fontys Module Management System". It includes background information and a small description of the customer and the organisation for which this project is done for.

1.1 Background information

The project belongs to the module SOFA of the seventh semester in the study course Informatics. The project team consists of business informatic and software engineering students. A real customer is involved in this project and the main goal of the project is to satisfy the customer and to act as a real company.

1.2 Context

The Project is for the Informatics department of the Fontys University of Applied Sciences in Venlo. The project period is about five months. The overall purpose of this SoFa project is to apply the knowledge and skills gained during the studies in the course Informatics. As students from both study directions business informatics and software engineering are involved in this project, subject-specific knowledge will be shared within the team and applied accordingly.

Chapter 2

Description

In this chapter is a description of the assignment for this project followed by an explanation of the problem which is to be solved. Finally the goals of the assignment will be set.

2.1 Assignment

The assignment of this project is to develop a system to manage module descriptions within the Informatics department of the Fontys University of Applied Science in Venlo.

2.2 Problem

2.3 Goals

Chapter 3

Project

In this chapter the project will be described in detail. It starts with a listing of the stakeholders. After that a explanation of the responsibilities will follow. Furthermore a detailed project scope, planning and organisation of this project is described in this chapter.

3.1 Roles and Responsibilities

3.1.1 Stakeholders

Role	Name	Interest	Influence
